

Leak Sensor

LUP series

Compact design, with polypropylene(PP) body and PVC(polyvinylchloride) cable, which can be installed in smaller than existing KP series sensors.

TFP-T series

Teflon PFA body and FEP cable. Build on the existing features of the LSP series. Compact design that occupies only 1/2 the space of previous sensors, with a thickness of just 10mm.

KP series

Low cost design using polypropylene(PP) body and PVC(polyvinylchloride) cable.

LSP series

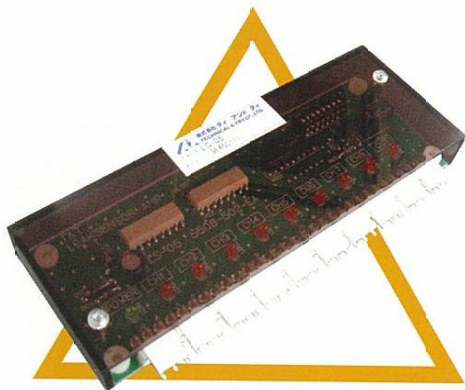

Teflon PFA body and FEP cable. Strong chemical resistance!

TFP-F&FD-2002-SR123

Adapted the light fiber, sensor not require electrical power, it is suitable to use under the flammable environment.

Specialist Amp

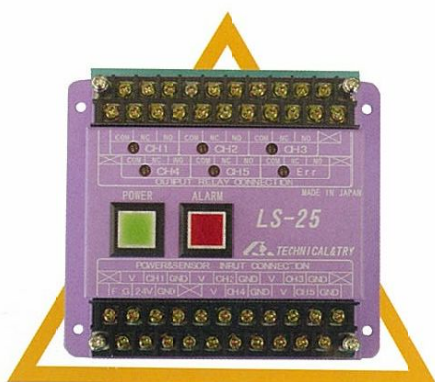

LS-05

Exclusive Amplifier for 8 channel.

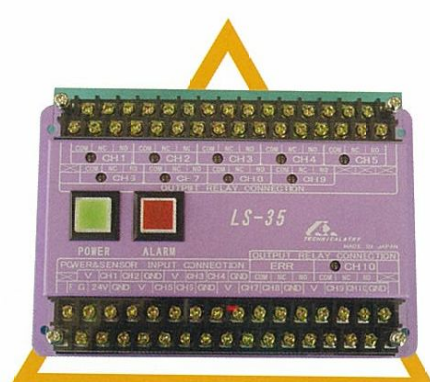

LS-15

Exclusive Amplifier for 1 channel.

LS-25

Exclusive Amplifier for 5 channel.

LS-35

Exclusive Amplifier for 10 channel.
